MATERIALS AND ARTICLES IN CONTACT WITH FOOD REGULATIONS, 1990

(LN. 1990/012)

1.2.1990

Amending enactments
Relevant current provisions
Commencement date
1990/019 Schedule 1 22.2.1990

EU Legislation/International Agreements involved:
Directive No. 80/66/EEC
Directive No. 81/432/EEC

ARRANGEMENT OF REGULATIONS.

Regulation

PART I
PRELIMINARY.

1. Title and Commencement and Revocation.
2. Interpretation.
3. Exemptions.

PART II
COMPOSITION AND LABELLING OF MATERIALS AND ARTICLES.

4. Sale etc of material articles.
5. Vinyl chloride monomer.
6. Regenerated cellulose film.
7. Labelling and description of materials and articles sold by retail.
8. Labelling and description of materials and articles sold otherwise than by retail.
9. Restrictions on use of description “food for use”.

© Government of Gibraltar (www.gibraltarlaws.gov.gi)
10. Materials and articles as prizes etc.

PART III
ADMINISTRATION AND ENFORCEMENT

12. Analysis examination and testing.
15. Confidentiality.
16. Penalties.
17. Application of various sections of the Act.

SCHEDULES.

SCHEDULE 1– Substances permitted for use in the manufacture of regenerated cellulose film.

Part I– Substances permitted for use in the manufacture of uncoated regenerated cellulose film.

Part II– Substances permitted for use in the manufacture of coated regenerated cellulose film.

SCHEDULE 2– Symbol that may accompany materials and articles intended for contact with food.
Food and Drugs

MATERIALS AND ARTICLES IN CONTACT WITH FOOD REGULATIONS, 1990

Title, commencement and revocation.

1.(1) These regulations may be cited as the Materials and Articles in Contact with Food Regulations 1990.

(2) These regulations shall come into operation on the 1st day of February, 1990.

(3) The Materials and Articles in contact with Food Regulations 1987 are hereby revoked.

Interpretation.

2.(1) In these regulations unless the context otherwise requires -

“business” includes the undertaking of a canteen, club, school, hospital or institution, whether carried on for profit or not;

“food” means food intended for human consumption and includes drink, water, natural mineral water, chewing gum and other products of a like nature and use, and articles and substances used as ingredients in the preparation of food, but does not include -

(a) live animals or birds.

(b) fodder or feeding stuffs for animals, birds or fish, or

(c) articles or substances used only as drugs;

“import” means import in the course of a business;

“Act” means the Food and Drugs Act;

“preparation” in relation to food, includes manufacture and any form of treatment or process;

“regenerated cellulose film” means a thin sheet material obtained from refined cellulose derived from unrecycled wood or cotton, with or without the addition of suitable substances, either in the mass or on one or both surfaces;

“registered trade mark” means a trade mark which has effect in any member State of the Economic Community and is duly registered in accordance with the laws of that State;

“sell” includes offer or expose for sale or have in possession for sale, and ‘sale’ and ‘sold’ shall be construed accordingly;
“sell by retail” means sell to a person buying otherwise than for the purposes of re-sale, but does not include selling to a caterer for the purposes of his catering business or to a manufacturer for the purposes of his manufacturing business, and ‘sold by retail’ shall be construed accordingly;

“ship” includes any boat or craft, and for this purpose ‘craft’ includes hovercraft.

(2) Any reference in these regulations to a numbered regulation shall be construed as a reference to the regulation bearing that number in these regulations.

Exemptions.

3. The provisions of these regulations shall not apply to-

(a) any fixed public or private water supply equipment;

(b) any substance which, being used as a covering or coating for a food, forms part of that food and may be consumed with it, including such a substance used as covering or coating for cheese rind or prepared meat products;

(c) any material or article intended for exportation to any place outside Gibraltar;

(d) any material or article which is a collector’s piece of artistic, archaeological or ethnographic interest or to any other material or article of an age exceeding 100 years

PART II.
COMPOSITION AND LABELLING OF
MATERIALS AND ARTICLES.

Sale etc of materials and articles.

4.(1) This regulation shall apply to materials and articles which are in their finished state and are intended to come into contact with food or which are in contact with food and are intended for that purpose.

(2) Materials and articles to which this regulation applies shall be manufactured in accordance with good manufacturing practice, that is to say in such a way that under normal or foreseeable conditions of use they do not
Food and Drugs

MATERIALS AND ARTICLES IN CONTACT WITH FOOD REGULATIONS, 1990

transfer their constituents to foods with which they are, or are likely to be, in contact, in quantities which could-

(i) endanger human health or

(ii) bring about a deterioration in the organoleptic characteristics of such food or an unacceptable change in its nature, substance or quality.

(3) No person shall -

(a) sell,

(b) import, or

(c) use in the course of a business in connection with the storage, preparation, packaging, selling or serving of food, any such material or article which does not comply with this regulation.

Vinyl Chloride Monomer.

5. (1). Materials and articles to which regulation 4 applies and which are manufactured with vinyl chloride polymers or copolymers -

(a) shall not contain vinyl chloride monomer in a quantity exceeding 1 milligram per kilogram of the material or article as measured by the method of analysis specified in regulation 13(1); and

(b) shall be manufactured in such a way that they do not transfer to foods with which they are in contact any quantity of vinyl chloride exceeding 0.01 milligrams of vinyl chloride per kilogram of food as measured by the method of analysis specified in Regulation 13(2).

(2) No person shall -

(a) sell,

(b) import, or

(c) use in the course of a business in connection with the storage, preparation, packaging, selling or serving of food, any such material or article which does not comply with this regulation.

any such material or article which does not comply with this regulation.
6. (1) Subject to paragraph (2) below, this regulation shall apply to regenerated cellulose film which -

(a) constitutes a finished product in itself; or

(b) is a part of a finished product containing other materials;

and is intended to come into contact with food or is in contact with food and is intended for that purpose.

(2) This regulation shall not apply to-

(a) regenerated cellulose film which has a coating exceeding 50 milligrams per square decimetre of film on the side intended to come into contact with food;

(b) synthetic casings of regenerated cellulose.

(3) No regenerated cellulose film to which this regulation applies shall be manufactured with any substance or group of substances other than the substances named or described in Schedule 1-

(a) in column 1 of Part I, in the case of uncoated film; or

(b) in column 1 of Part II, in the case of coated film;

and used in accordance with the conditions and restrictions specified in the corresponding entry in column 2 of the appropriate Part of Schedule 1 as read with footnotes 1 and 2 to that Schedule.

(4) Regenerated cellulose film to which this regulation applies shall be manufactured in such a way that it does not transfer any adhesive or colourant to food in any detectable quantity.

(5) Coated regenerated cellulose film to which this regulation applies shall be manufactured in such a way that it does not transfer bis(2-hydroxyethyl) ether, ethanediol or both these substances to food in a quantity exceeding 50 milligrams per kilogram of food.

(6) No person shall -

(a) sell,

(b) import, or
(c) use in the course of a business in connection with the storage, preparation, packaging, selling or serving of food,

any such regenerated cellulose film which does not comply with this regulation.

(7) No person shall use in the course of a business in connection with the storage, preparation packaging, selling or serving of food-

(a) containing water physically free at the surface, any coated regenerated cellulose film to which this regulation applies and which contains bis(2hydroxyethyl) ether, ethanediol or both these substances;

(b) any regenerated cellulose film to which this regulation applies in such a way that any printed surface of that regenerated cellulose film comes into contact with the food.

Labelling and description of materials and articles sold by retail.

7.(1) The following particulars shall be shown with any material or article which, being in its finished state, is intended to come into contact with food but is not already in contact with food when such material of or article is sold by retail:-

(a) unless the material or article is by its nature clearly intended to come into contact with food -

(i) the description “for food use”, or

(ii) a specific indication of the particular use for which the material or article is intended, or

(iii) the symbol that appears in Schedule 2 to these regulations,

(b) any special conditions to be observed when the material or article is being used, and

(c) either

(i) the name or trade name and address or registered office, or

(ii) the registered trade mark of the manufacturer or processor or article, of a seller thereof established within the Economic Community.
of the manufacturer or processor or article, or of a seller thereof established within the Economic Community.

(2) Such particulars shall be shown clearly, legibly and indelibly -

(a) on the material or article or on its packing, or

(b) on a label affixed to the material or article or to its packaging, or

(c) on a sign which is in the immediate vicinity of the material or article and is clearly visible to purchasers, but the particulars mentioned in paragraph (1)(c) of this regulation shall appear on such a sign only if it was not reasonably practicable for such particulars, or a label bearing them, to be marked on, or affixed to, the material or article or to its packaging at the time of manufacture or sale.

(3) No person shall sell by retail any such material or article, unless the particulars mentioned in paragraph (1) of this regulation are shown in the manner required by paragraph (2) of this regulation.

Labelling and description of materials and articles sold otherwise than by retail.

8.(1) The following particulars shall be shown with any material or article which, being in its finished state, is intended to come into contact with food but is not already in contact with food when such material or article is sold otherwise than by retail or is imported-

(a) (i) the description “for food use” or

(ii) a specific indication of the particular use for which the material or article is intended, or

(iii) the symbol that appears in Schedule 2 to these regulations,

(b) any special conditions to be observed when the material or article is being used, and

(c) either

(i) the name or trade name and address or registered office, or
(ii) the registered trade mark

of the manufacturer or processor of the material or article, or of a seller thereof established within the Economic Community.

(2) Such particulars shall be shown clearly, legibly and indelibly-

(a) on the material or article or on its packaging, or

(b) on a label affixed to the material or article or to its packaging, or

(c) in the accompanying documents.

(3) No person shall sell otherwise than by retail or import any such material or article, unless the particulars mentioned in paragraph (1) of this regulation are shown in the manner required by paragraph (2) of this regulation.

Restriction on use of description “for food use”.

9.(1) No person shall sell any material or article under the description “for food use” or under any other description directly leading a purchaser to believe that he is purchasing a material or article suitable for use with food, unless that material or article complies with the provisions of regulation 4(2) and, if applicable, of regulation 5(1) or of regulation 6(3), 6(4) and 6(5).

(2) No person shall sell any material or article in relation to which the symbol that appear in Schedule 2 to these regulations or any symbol substantially similar thereto is used, unless that material or article complies with the provisions of regulation 4(2) and, if applicable, of regulation 5(1) or of regulation 6(3), 6(4) and 6(5).

(3) No person shall publish, or be a party to the publication of, an advertisement for a material or article in which a description of the kind mentioned in paragraph (1) of this regulation is used, or in which the symbol that appears in Schedule 2 to these regulations or any symbol substantially similar thereto is used unless the material or article to which the advertisement relates, complies with the requirements of regulation 4(2) and, if applicable, of regulation 5(1) or of regulation 6(3), 6(4) and 6(5).

(4) In any proceedings brought under paragraph (3) of this regulation against the manufacturer, producer or importer of any material or article or of any food it shall rest on the person charged to prove that he did not publish, and was not party to the publication of, the advertisement.
(5) In any proceedings brought under paragraph (3) of this regulation it shall be a defence for the person charged to prove that, being a person whose business it is to publish, or arrange for the publication of, advertisements, he received the advertisement for publication in the ordinary course of business and did not know and had no reason to suspect that its publication would amount to an offence under this regulation.

(6) Where a person sells a material or article to a purchaser in response to a request in which a description of the kind mentioned in paragraph (1) of the regulation is used, he shall be deemed to have sold that material or article under that description, unless he clearly notifies the purchaser at the time of sale that the material or article is not suitable for use with food.

Materials and articles offered as prizes, etc.

10. (1) Regulations 4, 5, 6, 7 and 9 shall apply to-

(a) any material or article which is offered as a prize or reward in connection with any entertainment to which the public are admitted, whether on payment of money or not, as if the material or article were, or has been, exposed for sale by each person concerned in the organisation of the entertainment;

(b) any material or article which is offered as a prize or reward or given away for the purpose of advertisement, or in furtherance of any trade or business, as if the material or article were, or had been, exposed for sale by the person offering or giving away the material or article; and

(c) any material or article which is exposed or deposited in any premises for the purpose of being so offered or given away as aforesaid, as if the material or article were, or had been, exposed for sale by the occupier of the premises.

(2) In this regulation the expression ‘entertainment’ includes any social gathering, amusement, exhibition, performance, game, sport or trial of skill.

PART III.
ADMINISTRATION AND ENFORCEMENT.

Powers of authorised officers.

11. An authorised officer may-

(a) if he has reasonable cause to suspect that an offence under these regulations has been committed require any person
12.(1) The provisions of Sections 35 (which relate to right to have sample analysed) and 47(1) and (2) (which relate to evidence of analysis) of the Act shall have effect as regards any sample of any material or article to which these regulations apply or of any food which has come into contact with any such material or article, as they apply to samples of food in the said sections of the Act.

(2) The court before which any proceedings are taken under these regulations, may, if it thinks fit for the purposes of the proceedings, cause

(a) any material or article which is the subject of the proceedings and, if it has already been analysed, examined or tested, is capable of being further analysed, examined or tested, or

(b) any food which has been in contact with any such material or article,

to be sent to the Government Chemist in the United Kingdom, who shall make such analysis, examination or test as is appropriate and transmit to the court a certificate of the result thereof, and the costs of the analysis, examination or test shall be paid by the prosecutor or the person charged as the court may order.

(3) If in a case where an appeal is brought, no action has been taken under paragraph (2) of this regulation, the provisions thereof shall apply also in relation to the court by which the appeal is heard.

(4) Any certificate of the results of an analysis, examination or test transmitted by the Government Chemist under this regulation shall be signed by or on behalf of the Government Chemist, but the analysis, examination or test may be made by any person under the direction of the person by whom the certificate is signed; and any certificate so transmitted by the Government Chemist shall be evidence of the facts stated therein.
Method of analysis.

13.(1) The method used in analysing any sample for the purpose of establishing the quantity of vinyl chloride monomer present in order to determine whether it complies with the provisions of regulation 5(1)(a) shall be the method specified in the Annex to Commission Directive No. 80/66/EEC laying down the Community method of analysis for the official control of the vinyl chloride monomer level in materials and articles which are intended to come into contact with foodstuffs.

(2) The method used in analysing any food for the purpose of establishing the quantity of vinyl chloride present in the food in order to determine whether a material or article which is or has been in contact with the food complies with the provisions of regulation 5(l)(b) shall be the method specified in the Annex to Commission Directive No.81/432/EEC laying down the Community method for analysis for the official control of vinyl chloride released by materials and articles into foodstuffs.

Obstruction.

14.No person shall-

(a) intentionally obstruct an authorised officer acting in execution of these regulations; or

(b) without reasonable cause fail to give to any such authorised officer acting as foresaid any assistance or information or to provide such facilities as the authorised officer may reasonably require of him for the purposes of his functions under these regulations.

Confidentiality.

15. No information obtained from any books or documents provided in accordance with regulation 11(a) shall, without the previous consent of the person carrying on the trade or business in question, be disclosed except for the purpose of any proceedings for an offence against any of these regulations or any report of those proceedings.

Penalties.

16. If any person contravenes or fails to comply with any of the provisions of these regulations, he shall be guilty of an offence and liable on summary
conviction in the case of regulation 14 to a fine not exceeding £500 and in any other case to a fine not exceeding £1,000.

**Application of various sections of the Act**

17. Sections 46(2) and (3) (which relate to prosecutions), 50 (which relates to a contravention due to some person other than the person charged), 51 (which relates to conditions under which warranty may be pleaded as a defence) and 52 (which relates to offences in relation to warranties and certificates of analysis) of the Act shall apply for the purposes of these regulations as if references therein to proceedings, or a prosecution, under or taken or brought under the Act included references to proceedings, or a prosecution, as the case may be, taken or brought for an offence under these regulations.
SCHEDULE 1.

Regulation 6(3)

SUBSTANCES PERMITTED FOR USE IN THE MANUFACTURE OF REGENERATED CELLULOSE FILM.

MATERIALS AND ARTICLES IN CONTACT WITH FOOD
REGULATIONS, 1990

- sodium alkyl (C₈ to C₁₈) benzene sulphonate
- sodium isopropyl naphthalene sulphonate
- sodium alkyl (C₈ to C₁₈) sulphate
- sodium alkyl (C₈ to C₁₈) suiphonate
- sodium dioctylsulphosuccinate
- distearate of dihydroxyethyldiethylene triamine monoacetate
- ammonium, magnesium and potassium lauryl sulphates
- N,N’-distearoyl diaminoethane [≡N, N’distearoyl ethylenediaminel] and N.N’-dipalmitoyl diaminoethane [≡N ,N’-dipalmitoyl ethylenediamine] and N.N’-dioleoyl diaminoethane [N N’-dioleoyl ethylenediamine]
-2-heptadecyl-4,4’ bis–(methyleneestearate) oxazoline
- polyethylene aminostearamidic ethyl sulphate
- condensation product of melamine-formaldehyde unmodified, or modified with one of more of the following products:
  - butanol, diethylenetriamine, ethanol, triethylenetetramine, tetraethylenepentamine, tris(2-hydroxyethyl)amine, 3.3’-diaminodipropylamine, 4, 4’-diaminodibutylamine
  - condensation product of melamine-urea formaldehyde modified with tris(2-hydroxyethyl)amine
  - cross-linked cationic polyalkyleneamines:
    (a) Polyamide-epichlorohydrin recin based on diaminopropylmethyamine and epichlorohydrin

Not more than 0.05 mg/dm² in total on the side for contact with food
Not more than 0.1 mg/dm² in total on the side for contact with food
Not more than 1 mg/dm² in total
Free formaldehyde content on the side for contact with food shall not exceed 0.5 mg/dm²:
Free melamine content on the side for contact with food shall not exceed 0.3 mg/dm²
Free formaldehyde content on the side for contact with food shall not exceed 0.5 mg/dm²:
Free melamine content on the side for contact with food shall not exceed 0.3 mg/dm²
(b) polyamide-epichlorohydrin resin
based on epichlorohydrin, adipic acid,
caprolactam, diethylenetriamine
and/or ethylenediamine
(c) polyamide-epichlorohydrin resin
based on adipic acid,
diethylenetriamine and
epichlorohydrin, or a mixture of
epichlorohydrin and ammonia
(d) polyamide-polyamine
epichlorohydrin resin based on
epichlorohydrin, dimethyl adipate and
diethylenetriamine
(e) polyamide-polyamine
epichlorohydrin resin based on
epichlorohydrin, adipamide and
diaminopropylmethylamine
- polyethylenearaines and
polyethyleniminc
- condensation products of urea-
formaldehyde unmodified, or modified
with one or more of the following
products:
aminomethyl suiphonic acid,
suiphanilic acid, butanol,
diaminobutane,
diaminodipropylamine,
diaminopropane diethylenetriamine,
etanol, guanidine, methanol,
tetraethylenepentamine,
triethylenetetramine, sodium suiphite
Fourth class
- products resulting from the reaction
of the amines of edible oils with
polyethylene oxide
- monoethanolamine lauryl sulphate
3. Adhesives and colourants

Not more than 0.75 mg/dm² in total
Free formaldehyde content on the
side for contact with food shall not
exceed 0.5mg/dm²
Not more than 0.01 mg/dm² in total
In accordance with regulation 6(4)
1. Regenerated cellulose

For that part of the film other than the coating Not less than 72%

2. Additives

Softener
(a) Any softener specified in item 2 of Part I
(b) - bis (2-hydroxyethly) ether) In accordance with regulation 6(5)

Other additives

Not more than 1% in total

3. Coating substances

Polymers:
- ethyl, hydroxyethyl, hydroxpropyl and methyl ethers of cellulose
- cellulose nitrate
- polymers. copolymers and their mixtures made with the following monomers:
  vinyl acetals derived from saturated
  aldehydes (C₁ to C₆) vinyl acetate
  alkyl C₁ to C₄ vinyl ethers acrylic, Crotonic, itaconic, maleic,
  methacrylic acids and their esters butadiene
  styrene
  methylstyrene
  vinylidene chloride acrylonitrile
  methacrylonitrile ethylene, propylene, I-and 2-butylene vinyl chloride
  Resins

Not more than 20 mg/dm² on the side for contact with food. nitrogen content between 10.8 and 12.2%

In accordance with regulation 5(1)(a) and 5(1)(b)

Not more than 12.5mg/dm² in total on the side for contact with food and solely for the preparation of regenerated cellulose films with coatings based on nitrocellulose or polymers or copolymers of vinyl chloride and vinyl acetate
casein
colophony and/or its products of
polymerization, hydrogenation, or
disproportionation, and their ester of
methyl, ethyl or C2 to C6 polyhydric
alcohols, or mixtures of these
alcohols
colophony and/or its products of
polymerization, condensation, polymerization, hydrogenation, or
disproportionation, condensed with
acrylic, maleic, citric, fumaric and/or
phthalic acid and/or bisphenol
formaldehyde and esterified with
methyl, ethyl or C2 to C6 polyhydric
alcohols or mixtures of these
alcohols
esters derived from gly-(2-
hydroxyethyl) ether with addition
products of β-pinene and/or
dipentene and/or diterpene and
maleic anhydride
edible gelatine
castor oil and its products of
dehydration or hydrogenation and its
condensation products with
polyglycerol, adipic, citric, maleic,
phthalic and sebacic acids
natural gum [=damar]
poly-β-pinene [=terpenic resin]
urea-formaldehyde resin
(see Anchoring agents in item 2 of
Part I)
Plasticisers

Not more than 12.5 mg/dm² in total
on the side for contact with food
and, except as specified below,
solely for the preparation of
regenerated cellulose films with
coatings based on nitrocellulose or
polymers or copolymers of vinyl
cholride and vinyl acetate

di-isobutyl and di-n-butyl adipate
di-n-hexyl azelate
butyl benzyl phthalate
butyl methylcarboxbutyl phthalate
[=butylphthalyl butyl glycolate]
di-n-butyl phthalate and di-isobutyl
phthalate
Food and Drugs
MATERIALS AND ARTICLES IN CONTACT WITH FOOD REGULATIONS, 1990

dicyclohexyl phthalate
di(methylcyclohexyl) phthalate and its isomers [=sextolphthalate]
-2-ethylhexyl diphenyl phosphate

Not more than 2.5 mg/dm² on the side for contact with food

glycerol monoacetate [=monoacetin]
glycerol diacetate [=diacetin]
glycerol triacetate [=triacetin]
methylmethyl carboxyethyl phthalate [=methylphthaly ethyl glycolatel]

bis(2-ethylhexyl) sebacate [=dioctyl sebacate]
di-n-butyl tartrate and di-isobutyl tartrate

tributyl acetyl citrate
tris(2-ethylhexyl) acetyl citrate

Also for the preparation of regenerated cellulose films with coatings based on vinylidene chloride provided that they bear a distinctive indication that the film coating is based on vinylidene chloride and contains tributyl acetyl citrate or tris - (2-ethylhexyl) acetyl citrate, as the case may be

Other coating additives
(a) Any additive specified in item 2 of Part I

(b) Specific coating additives

hexadecan-1-ol and octadecan-1-ol esters of linear fatty acids, saturated or unsaturated, with an even number of carbon atoms from 8 to 20 inclusive and of ricinoleic acid with ethyl, butyl, amyl and oleoy linear alcohols

montan waxes, comprising purified montanic (C₂₆ to C₃₂) acids and/or their esters with ethanediol and/or 1,3-butanediol and/or their calcium and potassium salts
