(2) In determining whether an AIFM has complied with any provision referred to in regulation 39A(3)(c), anything which a relevant person has done or omitted in respect to business for which the AIFM has accepted responsibility is to be treated as having been done or omitted by the AIFM.

(3) In sub-regulation (2), the reference to a “relevant person” is to a person who at the material time is or was a tied agent of the AIFM, appointed in accordance with regulation 39A(1).

(4) Nothing in sub-regulation (3) is to cause the knowledge or intentions of a tied agent to be attributed to the AIFM for the purposes of determining whether the AIFM has committed an offence, unless in all the circumstances it is reasonable for them to be attributed to the AIFM.

(4) AIFMs must assess whether their operating conditions may involve any other material conflicts of interest and disclose them to the investors of the AIFs.

(5) Where organisational arrangements made by an AIFM to identify, prevent, manage and monitor conflicts of interest are not sufficient to ensure, with reasonable confidence, that risks of damage to investors' interests will be prevented, the AIFM must clearly disclose the general nature or sources of conflicts of interest to the investors before undertaking business on their behalf, and develop appropriate policies and procedures.

(6) Where the AIFM on behalf of an AIF uses the services of a prime broker, the terms must be set out in a written contract; and—

(a) in particular, any possibility of transfer and reuse of AIF assets must be provided for in that contract and must comply with the AIF rules or instruments of incorporation; and

Risk management.

42.(1) AIFMs must functionally and hierarchically separate the functions of risk management from the operating units, including from the functions of portfolio management.

(2) The GFSC must review the functional and hierarchical separation of AIFMs in accordance with the principle of proportionality, on the understanding that an AIFM must, in any event, be able to demonstrate—

(a) that specific safeguards against conflicts of interest allow for the independent performance of risk management activities; and

(b) that the risk management process satisfies the requirements set out in this Regulation and is consistently effective.

(3) AIFMs must implement adequate risk management systems in order to identify, measure, manage and monitor appropriately all risks relevant to each AIF investment strategy and to which each AIF is or may be exposed; and an AIFM must review its risk management systems with appropriate frequency at least once a year and adapt them whenever necessary.

(4) AIFMs must not rely solely and mechanistically on credit ratings issued by credit rating agencies for assessing the creditworthiness of the AIF's assets.

(5) The GFSC must—

- (a) monitor the adequacy of credit assessment processes of AIFMs;
- (b) assess the use of references to credit ratings issued by credit rating agencies in the AIF's investment policies; and
- (c) where appropriate, encourage mitigation of the impact of references referred to in paragraph (b);

taking into account the nature, scale and complexity of the AIF's activities, and with a view to reducing sole and mechanistic reliance on credit ratings.

(6) AIFMs must at least—

- (a) implement an appropriate, documented and regularly updated due diligence process when investing on behalf of the AIF, according to the investment strategy, the objectives and risk profile of the AIF;
- (b) ensure that the risks associated with each investment position of the AIF and their overall effect on the AIF's portfolio can be properly identified, measured, managed and monitored on an ongoing basis, including through the use of appropriate stress testing procedures;
- (c) ensure that the risk profile of the AIF corresponds to the size, portfolio structure and investment strategies and objectives of the AIF as laid down in the AIF rules or instruments of incorporation, prospectus and offering documents.

(7) AIFMs must set a maximum level of leverage which they may employ on behalf of each AIF they manage as well as the extent of the right to reuse collateral or guarantee that could be granted under the leveraging arrangement, taking into account, inter alia—

- (a) the type of the AIF;
 - (b) the investment strategy of the AIF;
 - (c) the sources of leverage of the AIF;
 - (d) any other interlinkage or relevant relationships with other financial services institutions, which could pose systemic risk;

 - (h) the scale, nature and extent of the activity of the AIFM on the markets concerned.

Liquidity management.

43.(1) AIFMs must, for each AIF that they manage which is not an unleveraged closed-ended AIF, employ an appropriate liquidity management system and adopt procedures which enable them to monitor the liquidity risk of the AIF and to ensure that the liquidity profile of the investments of the AIF complies with its underlying obligations.

(2) AIFMs must regularly conduct stress tests, under normal and exceptional liquidity conditions, which enable them to assess the liquidity risk of the AIFs and monitor the liquidity risk of the AIFs accordingly.

(3) AIFMs must ensure that, for each AIF that they manage, the investment strategy, the liquidity profile and the redemption policy are consistent.

(4) This regulation applies subject to any technical standards specifying–

- (a) the liquidity management systems and procedures; and
- (b) the alignment of the investment strategy, liquidity profile and redemption policy set out in sub-regulation (3).

Investment in securitisation positions.

44. AIFMs must comply with any any technical standards concerning in relation to–

- (a) the requirements that need to be met by the originator, the sponsor or the original lender, in order for an AIFM to be allowed to invest in securities or other financial instruments of this type issued after 1 January 2011 on behalf of AIFs, including requirements that ensure that the originator, the sponsor or the original lender retains a net economic interest of not less than 5%; or
- (b) qualitative requirements that must be met by AIFMs which invest in these securities or other financial instruments on behalf of one or more AIFs.

Organisational requirements

General principles.

45.(1) AIFMs must use, at all times, adequate and appropriate human and technical resources that are necessary for the proper management of AIFs and–

- (a) in particular, the GFSC must, in relation to each AIFM and having regard to the nature of the AIFs managed by it, require that the AIFM has sound administrative and accounting procedures, control and safeguard arrangements for electronic data processing and adequate internal control mechanisms;
- (b) the mechanisms must include, in particular, rules for personal transactions by its employees or for the holding or management of investments in order to invest on its own account;

- (c) the mechanisms must ensure, at least, that each transaction involving the AIFs may be reconstructed according to its origin, the parties to it, its nature, and the time and place at which it was effected; and
 - (d) the mechanisms must ensure that the assets of the AIFs managed by the AIFM are invested in accordance with the AIF rules or instruments of incorporation and the legal provisions in force.
- (2) This regulation applies subject to any technical standards specifying the procedures and arrangements under sub-regulation (1).

Valuation.

46.(1) AIFMs must ensure that, for each AIF that they manage, appropriate and consistent procedures are established so that a proper and independent valuation of the assets of the AIF can be performed in accordance with—

- (a) this Regulation;
 - (b) any relevant law of Gibraltar; and
 - (c) the AIF rules or instruments of incorporation.
- (2) AIFMs must also ensure that the net asset value per unit or share of AIFs is calculated and disclosed to the investors in accordance with—
- (a) this Regulation;
 - (b) any relevant law of Gibraltar; and
 - (c) the AIF rules or instruments of incorporation.
- (3) The valuation procedures used must ensure that the assets are valued and the net asset value per unit or share is calculated at least once a year.
- (4) If the AIF is of the open-ended type, such valuations and calculations must also be carried out at a frequency which is both appropriate to the assets held by the AIF and its issuance and redemption frequency.
- (5) If the AIF is of the closed-ended type, such valuations and calculations must also be carried out in case of an increase or decrease of the capital by the relevant AIF.

(6) The investors must be informed of the valuations and calculations as set out in the relevant AIF rules or instruments of incorporation.

(7) Rules applicable to the valuation of assets and the calculation of the net asset value per unit or share of an AIF must be made—

- (a) by the Minister by regulations under the Act; or
- (b) subject to provision made in accordance with paragraph (a), in the AIF rules or instruments of incorporation.

(8) AIFMs must ensure that the valuation function is either performed by—

- (a) an external valuer, being an individual or legal person independent from the AIF, the AIFM and any other persons with close links to the AIF or the AIFM; or
- (b) the AIFM itself, where the valuation task is functionally independent from the portfolio management and the remuneration policy and other measures ensure that conflicts of interest are mitigated and that undue influence on the employees is prevented.

(9) The depositary appointed for an AIF must not be appointed as external valuer of that AIF, unless it has functionally and hierarchically separated the performance of its depositary functions from its tasks as external valuer and the potential conflicts of interest are properly identified, managed, monitored and disclosed to the investors of the AIF.

(10) Where an external valuer performs the valuation function, the AIFM must demonstrate that—

- (a) the external valuer is subject to mandatory professional registration recognised by law or to legal or regulatory provisions or rules of professional conduct;

(13) The valuation must be performed impartially and with all due skill, care and diligence.

(14) Where the valuation function is not performed by an independent external valuer, the GFSC may require the AIFM to have its valuation procedures or valuations (or both) verified by an external valuer or, where appropriate, by an auditor.

(15) AIFMs are responsible for the proper valuation of AIF assets, the calculation of the net asset value and the publication of that net asset value; and–

- (a) an AIFM’s liability towards the AIF and its investors must, therefore, not be affected by the fact that the AIFM has appointed an external valuer; and
- (b) despite paragraph (a) and irrespective of any contractual arrangements providing otherwise, the external valuer is liable to the AIFM for any losses suffered by the AIFM as a result of the external valuer’s negligence or intentional failure to perform its tasks.

(16) This regulation applies subject to any technical standards specifying–

- (a) the criteria concerning the procedures for the proper valuation of the assets and the calculation of the net asset value per unit or share;
- (b) the professional guarantees the external valuer must be able to provide to effectively perform the valuation function;

 - (d) where the delegation concerns portfolio management or risk management and is conferred on a third-country undertaking, in addition to the requirements in paragraph (c), cooperation between the GFSC and the supervisory authority of the undertaking must be ensured;
 - (e) the delegation must not prevent the effectiveness of supervision of the AIFM, and, in particular, must not prevent the AIFM from acting, or the AIF from being managed, in the best interests of its investors;
 - (f) the AIFM must be able to demonstrate that the delegate is qualified and capable of undertaking the functions in question, that it was selected with all due care and that the AIFM is in a position to monitor effectively at any time the delegated activity, to give at any time further instructions to the delegate and to withdraw the delegation with immediate effect when this is in the interest of investors.
- (3) The AIFM must review the services provided by each delegate on an ongoing basis.
- (4) The delegation of portfolio management or risk management must not be conferred on—
- (a) the depositary or a delegate of the depositary; or

- (a) the AIFM consented prior to the sub-delegation;
- (b) the AIFM notified the GFSC before the sub-delegation arrangements became effective;
- (c) the conditions set out in sub-regulation (2), on the understanding that all references to the ‘delegate’ are read as references to the ‘sub-delegate’.

- (a) the depositary or a delegate of the depositary, or
- (b) any other entity whose interests may conflict with those of the AIFM or the investors of the AIF, unless such entity has functionally and hierarchically separated the performance of its portfolio management or risk management tasks from its other potentially conflicting tasks, and the potential conflicts of interest are properly identified, managed, monitored and disclosed to the investors of the AIF.

(8) The relevant delegate must review the services provided by each sub- delegate on an ongoing basis.

- (a) the tasks are not delegated with the intention of avoiding the requirements of these Regulations;
- (b) the depositary can demonstrate that there is an objective reason for the delegation;
- (c) the depositary has exercised all due skill, care and diligence in the selection and the appointment of any third party to whom it wants to delegate parts of its tasks, and keeps exercising all due skill, care and diligence in the periodic review and ongoing monitoring of any third party to whom it has delegated parts of its tasks and of the arrangements of the third party in respect of the matters delegated to it; and
- (d) the depositary ensures that the third party meets the following conditions at all times during the performance of the tasks delegated to it–
 - (i) the third party has the structures and the expertise that are adequate and proportionate to the nature and complexity of the assets of the AIF or the AIFM acting on behalf of the AIF which have been entrusted to it;
 - (ii) for custody tasks referred to in sub-regulation (15)(a), the third party is subject to effective prudential regulation, including minimum capital requirements, and supervision in the jurisdiction concerned and the third party is subject to an external periodic audit to ensure that the financial instruments are in its possession;
 - (iii) the third party segregates the assets of the depositary’s clients from its own assets and from the assets of the depositary in such a way that they can at any time be clearly identified as belonging to clients of a particular depositary;
 - (iv) the third party does not make use of the assets without the prior consent of the AIF or the AIFM acting on behalf of the AIF and prior notification to the depositary; and
 - (v) the third party complies with the general obligations and prohibitions set out in sub-regulations (15), (17), (18) and (19).

(22) Despite sub-regulation (21)(d)(ii), where the law of a third country requires that certain financial instruments be held in custody by a local entity and no local entities satisfy the delegation requirements laid down in that sub-regulation, the depositary may delegate its functions to such a local entity only to the extent required by the law of the third country and only for as long as there are no local entities that satisfy the delegation requirements, subject to the following requirements—

- (a) the investors of the relevant AIF must be duly informed that such delegation is required due to legal constraints in the law of the third country and of the circumstances justifying the delegation, prior to their investment; and
- (b) the AIF, or the AIFM on behalf of the AIF, must instruct the depositary to delegate the custody of such financial instruments to such local entity.

(23) The third party may, in turn, sub-delegate those functions, subject to the same requirements (and sub-regulation (26) applies, with any necessary modifications, to the relevant parties).

(24) For the purposes of this regulation, the provision of settlement services by a system designated under regulation 5 of the Financial Services (Financial Markets and Insolvency: Settlement Finality) Regulations 2020 or the provision of similar services by a third-country securities settlement system is not to be considered as a delegation of custody functions.

(25) The depositary is liable to the AIF or to the investors of the AIF, for the loss by the depositary or a third party to whom the custody of financial instruments held in custody in accordance with sub-regulation (15)(a) has been delegated; and—

- (a) in the case of such a loss of a financial instrument held in custody, the depositary must return a financial instrument of identical type or the corresponding amount to the AIF or the AIFM acting on behalf of the AIF without undue delay;
- (b) the depositary is not liable if it can prove that the loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary;
- (c) the depositary is also liable to the AIF, or to the investors of the AIF, for all other losses suffered by them as a result of the depositary's negligent or intentional failure to properly fulfil its obligations pursuant to these Regulations.

(26) The depositary's liability is not affected by any delegation referred to in sub-regulations (20) to (24); but in the case of a loss of financial instruments held in custody by a third party

pursuant to those sub-regulations, the depositary may discharge itself of liability if it can prove that–

- (a) all requirements for the delegation of its custody tasks set out in sub-regulation (21) are met;
- (b) a written contract between the depositary and the third party expressly transfers the liability of the depositary to that third party and makes it possible for the AIF or the AIFM acting on behalf of the AIF to make a claim against the third party in respect of the loss of financial instruments or for the depositary to make such a claim on their behalf; and
- (c) a written contract between the depositary and the AIF or the AIFM acting on behalf of the AIF, expressly allows a discharge of the depositary’s liability and establishes the objective reason to contract such a discharge.

(27) In addition, where the law of a third country requires that certain financial instruments are held in custody by a local entity and there are no local entities that satisfy the delegation requirements laid down in sub-regulation (21)(d)(ii), the depositary can discharge itself of liability where the following conditions are met–

- (a) the rules or instruments of incorporation of the AIF concerned expressly allow for such a discharge under the conditions set out in this sub-regulation;
- (b) the investors of the relevant AIF have been duly informed of that discharge and of the circumstances justifying the discharge prior to their investment;
- (c) the AIF or the AIFM on behalf of the AIF instructed the depositary to delegate the custody of such financial instruments to a local entity;
- (d) there is a written contract between the depositary and the AIF or the AIFM acting on behalf of the AIF, which expressly allows such a discharge; and
- (e) there is a written contract between the depositary and the third party that expressly transfers the liability of the depositary to that local entity and makes it possible for the AIF or the AIFM acting on behalf of the AIF to make a claim against that local entity in respect of the loss of financial instruments or for the depositary to make such a claim on their behalf.

(28) Liability to the investors of the AIF may be invoked directly or indirectly through the AIFM, depending on the legal nature of the relationship between the depositary, the AIFM and the investors.

(29) The depositary must make available to the GFSC, on request, all information which it has obtained while performing its duties and that may be necessary for the GFSC or the other supervising authorities of the AIF or the AIFM.

(30) This regulation applies subject to any technical standards specifying–

- (a) the particulars that need to be included in the written contract referred to in sub-regulation (2);
- (b) general criteria for assessing whether the prudential regulation and supervision of third countries as referred to in sub-regulation (10)(b) have the same effect as Gibraltar law and are effectively enforced;
- (c) the conditions for performing the depositary functions pursuant to sub-regulations (13) to (16), including–

- (e) the segregation obligation pursuant to sub-regulation (21)(d)(iii);
- (f) the conditions subject to which and circumstances in which financial instruments held in custody are to be considered as lost;
- (g) what is to be understood by external events beyond reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary pursuant to sub-regulation (25);
- (h) the conditions subject to which and circumstances in which there is an objective reason to contract a discharge pursuant to sub-regulation (26).

- (ii) to require the issue, repurchase or redemption of units to be suspended in accordance with sub-regulation (2)(h); or

(4) A decision by the GFSC under sub-regulation (3)—

- (a) to dispense with the requirement to issue a warning notice; or

**Financial Services (Alternative Investment Fund
Managers) Regulations 2020**

(6) The GFSC may take any action it considers necessary in order to ensure the orderly functioning of markets in those cases where the activity of one or more AIFs in the market for a financial instrument could jeopardise the orderly functioning of that market.

(7) In particular the GFSC may take any of the following actions–

- (a) prohibit the marketing of units or shares of AIFs managed by non-Gibraltar AIFMs or of non-Gibraltar AIFs managed by a Gibraltar AIFM without the authorisation required in regulation 62 or 68;
- (b) impose restrictions on non-Gibraltar AIFMs relating to the management of an AIF in case of excessive concentration of risk in a specific market;

(8) The powers under sub-regulation (7) must be exercised so as to–

- (a) effectively address the threat to the orderly functioning and the integrity of the financial market or to the stability of the whole or a part of the financial system in Gibraltar or significantly improve the ability of the GFSC to monitor the threat;
- (b) avoid a risk of regulatory arbitrage;

(10) *Omitted.*

(11) For the purposes of Part 10 of the Act, the definition of “relevant persons” in section 131 of the Act includes a small AIFM which is not an external AIFM.

- (2) Where the GFSC—
- (a) proposes to issue a direction under sub-regulation (1), it must give the AIFM and the person concerned a warning notice; or
 - (b) decides to issue a direction under sub-regulation (1), it must give the AIFM and the person concerned a decision notice.
- (3) Sub-regulation (2)(a) does not apply if the GFSC is satisfied that a warning notice—
- (a) cannot be given because of urgency;
 - (b) should not be given because of the risk that steps would be taken to undermine the effectiveness of the direction; or
 - (c) is superfluous having regard to the need to give notice of legal proceedings, or for some other reason.
- (4) A person aggrieved by a decision notice under sub-regulation (2)(b) may appeal against the decision under section 615 of the Act.
- (5) For the purposes of sub-regulation (3)(a), the GFSC must not consider that urgency exists unless Conditions B and C in section 80(3) and (4) of the Act are met.
- (6) If those conditions are met, the GFSC must give the AIFM and the person concerned a notice stating that the direction takes effect on the date of the notice or on any later date that may be specified in the notice.
- (7) Sections 80(7) and (8) and 81 of the Act apply to a decision by the GFSC under sub-regulation (3)(a)—
- (a) as if references in those sections to the varying of a permission or the imposing or varying of a requirement (however expressed) were references to the imposition of a direction under sub-regulation (1); and
 - (b) with such other modifications as may be required by the circumstances and context of sub-regulation (3).
- (8) The issue of a decision notice imposing a direction under sub-regulation (1) is a specified regulatory decision to which section 24(3) of the Act applies.

71.(1) The power of the GFSC under section 137 of Part 10 of the Act to appoint an inspector includes the power to appoint an inspector under sub-regulation (2).

(2) The GFSC may appoint one or more persons (an “appointed person”) to investigate and report on the affairs of an AIF in relation to business suspected of being carried out in or from within Gibraltar in contravention of the provisions of these Regulations.

Protection order.

72. The power of the GFSC under section 328(2) of Part 18 of the Act to apply to the Court for a protection order applies to an AIF under these Regulations as if an AIF was a scheme listed in section 328(1) (with any necessary modifications).

**CHAPTER 2

Sanctioning powers.

73. For the purposes of section 150 of the Act, the sanctioning powers set out in Part 11 of the Act which are exercisable in relation to contravention of a regulatory requirement (within the meaning of that Part) are to be read together with the provisions of this Chapter.

Maximum amounts of administrative penalty.

74.(1) Any administrative penalty imposed under section 152 of the Act for a contravention of a regulatory requirement in connection with the regulated activity of managing an AIF (in-scope AIFM) within the meaning of paragraph 95 of Schedule 2 to the Act or the regulated activity of managing an AIF (small scheme manager) within the meaning of paragraph 97 of Schedule 2 to the Act must be of an amount which does not exceed the higher of the following—

PART 2

REMUNERATION POLICY

1. When establishing and applying the total remuneration policies, inclusive of salaries and discretionary pension benefits, for those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the AIFMs or of AIFs they manage, AIFMs shall comply with the following principles in a way and to the extent that is appropriate to their size, internal organisation and the nature, scope and complexity of their activities–

- (a) the remuneration policy is consistent with and promotes sound and effective risk management and does not encourage risk- taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the AIFs they manage;
- (b) the remuneration policy is in line with the business strategy, objectives, values and interests of the AIFM and the AIFs it manages or the investors of such AIFs, and includes measures to avoid conflicts of interest;
- (c) the management body of the AIFM, in its supervisory function, adopts and periodically reviews the general principles of the remuneration policy and is responsible for its implementation;
- (d) the implementation of the remuneration policy is, at least annually, subject to central and independent internal review for compliance with policies and procedures for remuneration adopted by the management body in its supervisory function;
- (e) staff engaged in control functions are compensated in accordance with the achievement of the objectives linked to their functions, independent of the performance of the business areas they control;
- (f) the remuneration of the senior officers in the risk management and compliance functions is directly overseen by the remuneration committee;
- (g) where remuneration is performance related, the total amount of remuneration is based on a combination of the assessment of the performance of the individual and of the business unit or AIF concerned and of the overall results of the AIFM, and when assessing individual performance, financial as well as non-financial criteria are taken into account;
- (h) the assessment of performance is set in a multi-year framework appropriate to the life-cycle of the AIFs managed by the AIFM in order to ensure that the assessment

process is based on longer term performance and that the actual payment of performance-based components of remuneration is spread over a period which takes account of the redemption policy of the AIFs it manages and their investment risks;

- (i) guaranteed variable remuneration is exceptional, occurs only in the context of hiring new staff and is limited to the first year;
- (j) fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy, on variable remuneration components, including the possibility to pay no variable remuneration component;
- (k) payments related to the early termination of a contract reflect performance achieved over time and are designed in a way that does not reward failure;
- (l) the measurement of performance used to calculate variable remuneration components or pools of variable remuneration components includes a comprehensive adjustment mechanism to integrate all relevant types of current and future risks;
- (m) subject to the legal structure of the AIF and its rules or instruments of incorporation, a substantial portion, and in any event at least 50% of any variable remuneration consists of units or shares of the AIF concerned, or equivalent ownership interests, or share-linked instruments or equivalent non-cash instruments, unless the management of AIFs accounts for less than 50% of the total portfolio managed by the AIFM, in which case the minimum of 50% does not apply.

The instruments referred to in this point shall be subject to an appropriate retention policy designed to align incentives with the interests of the AIFM and the AIFs it manages and the investors of such AIFs. The GFSC may exercise its powers under Part 7 of the Act to place restrictions on the types and designs of those instruments or ban certain instruments as appropriate. This point shall be applied to both the portion of the variable remuneration component deferred in line with point (n) and the portion of the variable remuneration component not deferred;

- (n) a substantial portion, and in any event at least 40%, of the variable remuneration component, is deferred over a period which is appropriate in view of the life cycle and redemption policy of the AIF concerned and is correctly aligned with the nature of the risks of the AIF in question.

The period referred to in this point shall be at least three to five years unless the life cycle of the AIF concerned is shorter; remuneration payable under deferral arrangements vests no faster than on a pro-rata basis; in the case of a variable remuneration component of a particularly high amount, at least 60% of the amount is deferred;

- (o) the variable remuneration, including the deferred portion, is paid or vests only if it is sustainable according to the financial situation of the AIFM as a whole, and justified according to the performance of the business unit, the AIF and the individual concerned.

The total variable remuneration shall generally be considerably contracted where subdued or negative financial performance of the AIFM or of the AIF concerned occurs, taking into account both current compensation and reductions in payouts of amounts previously earned, including through malus or clawback arrangements;

- (p) the pension policy is in line with the business strategy, objectives, values and long-term interests of the AIFM and the AIFs it manages.

If the employee leaves the AIFM before retirement, discretionary pension benefits shall be held by the AIFM for a period of five years in the form of instruments defined in point (m). In the case of an employee reaching retirement, discretionary pension benefits shall be paid to the employee in the form of instruments defined in point (m), subject to a five year retention period;

- (q) staff are required to undertake not to use personal hedging strategies or remuneration- and liability-related insurance to undermine the risk alignment effects embedded in their remuneration arrangements;
- (r) variable remuneration is not paid through vehicles or methods that facilitate the avoidance of the requirements of these Regulations.

2. The principles set out in paragraph 1 shall apply to remuneration of any type paid by the AIFM, to any amount paid directly by the AIF itself, including carried interest, and to any transfer of units or shares of the AIF, made to the benefits of those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on their risk profile or the risk profiles of the AIF that they manage.

3. AIFMs that are significant in terms of their size or the size of the AIFs they manage, their internal organisation and the nature, the scope and the complexity of their activities shall establish a remuneration committee. The remuneration committee shall be constituted in a way that enables it to exercise competent and independent judgment on remuneration policies and practices and the incentives created for managing risk.

The remuneration committee shall be responsible for the preparation of decisions regarding remuneration, including those which have implications for the risk and risk management of the AIFM or the AIF concerned and which are to be taken by the management body in its supervisory function. The remuneration committee shall be chaired by a member of the management body who does not perform any executive functions in the AIFM concerned. The members of the remuneration committee shall be members of the management body who do not perform any executive functions in the AIFM concerned.
