Notes to Parts 1 and 2

Complexity assessment

The complexity of an application or notice will be assessed by the GFSC, based on the nature and level of effort required by the GFSC to determine it. An application or notice under Part 1 or 2 which is subject to a complexity assessment may be submitted to the GFSC without any fee. Following the complexity assessment, the GFSC will advise the applicant or the notice-giver of the appropriate fee, which must be paid before the application or notice is regarded as complete.

Passporting (UK market access right)

An application by an existing regulated person to passport into the UK is a material change that requires the GFSC's consent under section 83A of the Act (see section 83A(2)). For such applications only the section 83A consent application fee under Part 1 is payable.

In respect of passporting applications made as part of an application to become a regulated person, only the passporting fee under Part 2 is payable.

Material changes related to permission variation

In most cases, an application to vary a Part 7 permission will involve changes that amount to a material change for which consent is required under section 83A of the Act. Where a section 83A consent application is made which relates to a variation application and is supported by adequate information in respect of the related application, only one fee will be payable. That fee will be the higher of the section 83A consent application fee or the variation application fee, as determined by the GFSC following complexity assessment.
