EXPLANATORY MEMORANDUM

These Regulations amend the Merchant Shipping (Port State Control) Regulations 2011 to add the FuelEU Document of Compliance to the certificates and documents to be verified during a port State inspection carried out in accordance with Directive 2009/16/EC, giving effect to Article 25(2) and Article 28 of Regulation (EU) 2023/1805. The verification is confined to confirming that a valid FuelEU Document of Compliance (or an equivalent document issued by an EU Member State or an EEA State) is carried on board. The substantive inspection, verification, detention, expulsion and refusal-of-access powers in connection with the FuelEU regime are contained in the Gibraltar Merchant Shipping (Renewable and Low-Carbon Fuels in Maritime Transport) Regulations 2026, and are not conferred by these Regulations. This preserves the established scope of the port State control framework under Directive 2009/16/EC and the Paris Memorandum of Understanding on Port State Control.
