EXPLANATORY MEMORANDUM

These Regulations amend the Public Health Act to align Gibraltar's waste shipment regime with Regulation (EU) 2024/1157, as applied in Gibraltar by the Shipments of Waste (Regulation 2024/1157) (Gibraltar) Regulations 2026. The principal amendments include the insertion of cross-references to the 2024 Regulation as adapted by the Shipments of Waste Regulations; the creation of new offence provisions relating to the export of non-hazardous and plastic waste; the introduction of facility audit obligations for exporters; new requirements for the electronic submission of information; enhanced inspection plans; an expanded environmentally sound management framework; and a transitional alignment provision ensuring that the phased replacement of the TSW Regulation by the 2024 Regulation, as provided for in Regulation 38 of the Shipments of Waste Regulations, is reflected in the operation of the Public Health Act.
